

International Food Services companies (IFS), is specialized in manufacturing many consumer goods since 1994, for Local and Export. In 2011, IFS established a modern factory for manufacturing frozen Potatoes in Egypt called International Food & Consumable Goods - Egypt S. A. E (IFCG Egypt). It produces a range of high-quality frozen potato, marinated potato and sweet potato. IFCG Egypt become one of the largest potato manufacturers, selling its products and exporting them to the UK, Europe, Middle East and Africa markets.

## Our Vision

To be the most favorite consumers' choice of potatoes, sweet potatoes, food and specialty products.

## Our Mission

To deliver first-class, healthy and safe products with passion to our clients and consumers who are our motivators and drivers.

## Our Quality

We strive from the very beginning to control the quality of our products, from seed stage till they're served on your dining table. Care is taken to ensure that IFCG Egypt's employees receive continuous training, courses and awareness of the importance of quality control. We work hard to preserve the environment by taking the best measures of total energy consumption, as well as reducing air pollution, noise and odors.

## Our Farms

IFCG EGYPT works with one of the sister companies of Alexandria Copenhagen Company (which owns a farm on an area of more than 1000 acres approve by the European Union for its irrigation system), where the finest types of imported potato seeds are grown, classified by the European Union as Pest Free Area - Grade "A", and this entitles IFCG Egypt to export products not only to the European Union, but to all parts of the world.

# Export

IFCG EGYPT's export occupies a large share of the production capacity, as it contributes 50-60% of the total sales before Covid-19. We have proven our ability in a very short period of time to meet the demands of other markets (private labels, packaging, etc.), especially in the Gulf Cooperation Council countries, the UK and Europe.
